

Exchange Students End of Year Newsletter – 2018-19

We have enjoyed a fabulous end to our year studying at Huntington School. Our students have now all completed their exams and are beginning to return home to Germany.

We hope all their efforts will be rewarded with an excellent set of results, enhancing their studies or career choices back home in Germany.

Our students were not just successful inside the classroom...

Pictured far left is Henri after successfully completing his recent driving test...quite an achievement! Johan (pictured left) has also passed his driving test and has bought his own car. This will be such an advantage to him next year, as he has decided to return to York in September to complete a second year of study.

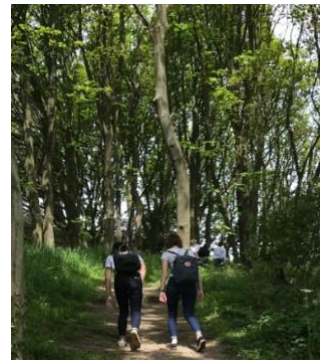

They also had some fun on our end-of-year trip.

Pictured below are some of the students from our cliff top walk between Scarborough and Robin Hood's Bay.

Time for a quick stop to catch our breath and one final uphill climb right, before we reach the pub halfway round, for some much needed refreshment!

Some traditional English 'grub' and a drink, then we return via the old railway line.

Leavers Lunch and Certificates

To finish our year Mr Hardwell (Director of Sixth Form) presents students with their certificates at the end-of-year Leavers Lunch. A big well done and congratulations to everyone!

Jim Tomlinson (Ambassador of Huntington School)

"It's wonderful to see the development of these fabulous students from the early stages of the application process through to their achievements today. I have known some of the students for several years as they originally came on the 'Embrace England' stepping stone programmes. So for them the journey has been even longer!"

We are now inviting applications from your school for 2020/21.
Interested students should contact ambassdor@huntington-school.uk
